

Freight Stream

FreightStream CHB / ABI

Streamlining the Customs Clearance Process

Introducing FreightStream CHB/ABI, an innovative ABI software solution designed to make your business more efficient and productive. With FreightStream CHB/ABI, whether you are a customs broker or an importer, you will enjoy a quick and easy to use system, backed by extensive industry expertise.

- User-friendly data entry screen, start & finish your entry filing all in one place.
- See up to the minute status of all your entries (Cargo Release, Entry Summary, OGA, Billing) from your entry view list.
- View all 'hold' shipments (Cargo Release, OGA) sorted by user, or company, all in one place.
- Reliable 24/7 VPN data connection to Customs (instant transmission results).
- Powerful search function lets you search through any module by any data field, with as little as 1 character.
- Integrated document management allows you to electronically attach, store any files to your entry, effectively reducing or eliminating paperwork.
- One click fax and email of all CBP Forms and any other FreightStream generated document right from your desktop.
- Automatic detailed log history keeping of all document output (print, email, fax).
- Seamless data interchange between FreightStream CHB/ABI & FreightStream 1.2 users.
- Electronic signature merging capability for CBP forms or other documents.
- Innovative milestone system automatically keeps a complete history of an entry, from its creation to liquidation, and all significant events in between(system defined or user Customized).
- Validation checks located throughout all modules, reducing or eliminating errors.
- Set security levels for signature privilege or access to certain specific modules.
- Integrated accounting system with wide range of operation, accounting and management reports.
