Press Release

Suntek Systems / FreightStream Develop Major Feature Upgrade to Accounting Module.

Irvine, CA, July 5th, 2010: Suntek Systems inc. has worked very closely with our customers and has developed in collaboration with the expert CPA guidance of Seung Hye Seo to implement an upgraded accounting module to our Freight Management System software. This new accounting update comes at no cost to our customers and will be sent electronically to all of our customers within the coming month. We anticipate that the accounting upgrade rollout will be completed by the end of July to all of our customers, at which time you may decide whether or not to utilize the new accounting system.

Frequently asked questions about upgrade to 2.0 Accounting System

1. Q. Will the new Accounting changes affect the operations procedures?
 - A. No. The operations functions within FreightStream have not been changed.
 2. Q. Do I have to update to the new accounting system immediately?
 - A. No. The new accounting system is shipped with the latest update of the FreightStream software, but it is not enabled by default. In order to enable the new accounting system, you can follow the instructions found in our learning resource website or through opening a support request.
 3. Q. Where can I learn more about the changes to the new account system? Will there be training sessions to help understand the new accounting system?
 - A. You can visit our new learning resource website by visiting <http://learn.freightstream.com>, contact a FreightStream support representative to find out more details about training or using the learning website.
